TAN NGUYEN LE

Full-Stack Developer | Frontend Specialist

Auckland, New Zealand • **New Zealand Resident** ✓ • 027 365 8522 • nguyenletan@gmail.com

LinkedIn Profile • Portfolio • GitHub

PROFESSIONAL SUMMARY

Front-End and **Full-Stack developer** with **10 years** of **experience** building high-performance **web and mobile** applications across APAC markets. Recently relocated to Auckland from Australia with **New Zealand residency**. Specialized in **React.js, Next.js**, **React Native**, **.NET**, **TypeScript**, and **Node.js** ecosystems. Proven track record improving site performance by 57% and delivering production-ready solutions for enterprise clients. Seeking front-end or full-stack developer roles where I can leverage my expertise in modern JavaScript frameworks and contribute to innovative projects.

CORE TECHNICAL SKILLS

Frontend	Backend	Tools & Platform
React.js, Next.js, Gatsby.js TypeScript, JavaScript Tailwind CSS, CSS3 Angular, Vue.js, React Native	Node.js, Express.js .NET Core, C# NestJS, GraphQL RESTful APIs	PostgreSQL, MySQL Docker, AWS Vercel, Git Sanity CMS, Payload CMS, WordPress

PROFESSIONAL EXPERIENCE

Full-Stack & Front-End Developer

Anacle (Remote Contractor), Singapore | May 2024 – Present

- Led complete migration of Simplicity website from WordPress to Next.js with Sanity Headless CMS, reducing load times from 7s to 3s (57% improvement), significantly enhancing user experience and SEO performance.
- Developed and maintain production full-stack applications using Node.js, React.js, and PostgreSQL, ensuring 99.9% uptime and optimal performance across global markets.
- Collaborated with UX designers to implement sophisticated micro-animations and interactions, elevating user engagement through thoughtful motion design.

Full-Stack Node.js Developer

Inlight, Melbourne, Australia | Sep 2022 – May 2024

- Delivered full-stack solutions for major Australian brands (Nandos, AHM) using React.js/Next.js frontend and Express.js backend, React Native mobile, integrating with enterprise systems including Civica Ensure and Sanity CMS.
- Built Urban Rest's e-commerce platform using Next.js with seamless Stripe payment integration, handling transactions processing and order management workflows.
- Architected scalable component libraries and design systems, improving development velocity by 40% across multiple client projects.

Front-End Developer

Our Very Own (Bound), Melbourne, Australia | Jan 2021 – Sep 2022

- Developed A2Milk corporate website with server-side rendering using Next.js, implementing advanced search functionality with Algolia for optimal performance and user experience.

- Contributed to KidsFirst website redesign using Gatsby.js, achieving 60% improvement in page load speeds.

EARLIER EXPERIENCE

Senior Frontend Software Engineer

NashTech, Ho Chi Minh City, Vietnam | Dec 2009 – Jan 2020

- Led frontend development for enterprise applications using .NET, AngularJS, React.js, and jQuery, serving international clients across finance and healthcare sectors.
- Mentored team of 5 junior developers on React best practices and modern JavaScript patterns, fostering collaborative development environment and code quality standards.
- Collaborated with cross-functional design teams to deliver intuitive, user-friendly interfaces that increased customer satisfaction scores by 35%.

.NET Software Engineer

Pyramid Consulting, Ho Chi Minh City, Vietnam | 2007 – 2009

- Developed web applications using ASP.NET MVC, C#, and jQuery, consistently delivering projects within tight deadlines resulting in high client satisfaction and repeat business

.NET Software Engineer

TMA Solutions, Ho Chi Minh City, Vietnam | 2006 – 2007

- Developed scalable web applications using ASP.NET and MS SQL, focusing on performance optimization and contributing to successful launch of client CMS platform.

KEY PROJECTS & ACHIEVEMENTS

- **A2Milk UI Revamp**: Complete UI redesign and CMS migration from WordPress Headless to Kontent.ai Headless CMS, modernizing the design system and improving content management workflows for editorial team
- **E-commerce Platform (Urban Rest)**: Built complete Next.js e-commerce solution with Stripe payments, inventory management, and real-time order tracking.
- **Enterprise CMS Migration**: Delivered WordPress to Next.js migration for Anacle Simplicity website, improving Core Web Vitals scores from 45 to 95 and reducing server costs by 40%.

EDUCATION

Bachelor of Science in Software Engineering

University of Science, Ho Chi Minh City, Vietnam | Graduated 2006 | GPA: 8.02/10
