EMPLOYMENT

Anacle, (remote contractor) Singapore   May 2024 – Now
Full Stack Node.js Developer
- Led the migration of the Simplicity website from WordPress to Next.js and Sanity Headless CMS, **reducing load times from 7 seconds to 3 seconds, a 57% improvement**.
- Developed and maintain full-stack applications using Node.js, React.js, and PostgreSQL, ensuring high availability and optimal user experience.
- Collaborate with cross-functional teams to maintain the Anacle Partner Website and Tesseract product site, ensuring seamless functionality and a consistent user experience.

Inlight, Australia   Sep 2022 – May 2024

Full Stack Node.js Developer

- Implemented full-stack solutions for various clients, using React.js/NextJS for the front end and Express.js for the back end.
- Developed both front-end and back-end components for projects like Nandos and AHM, integrating with systems like Civica Ensure and Sanity CMS.
- Built Urban Rest's website using Next.js and integrating Stripe for payments.

Our Very Own (Bound), Australia   Jan 2021 to Sep 2022

Front-End Developer

- Developed and maintained front-end components using React.js, Next.js, and Gatsby.js for client websites.
- Worked on the A2Milk website, implementing server-side rendering with Next.js and optimizing search functionality with Algolia.
- Contributed to the redesign of KidsFirst's website using Gatsby.js, improving site speed and overall user experience.

NashTech, Vietnam   Dec 2009 to Jan 2020

Senior Front-End Software Engineer

- Developed and maintained front-end applications using .NET, AngularJS, React.js, and jQuery.
- Collaborated with design teams to implement user-friendly interfaces.
- Assisted in mentoring junior developers, contributing to a collaborative team environment.

Pyramid Consulting, Vietnam   2007 to 2009

.NET Software Engineer

- Developed web applications using ASP.NET MVC, C#, and jQuery.
- Delivered projects within tight deadlines, leading to high client satisfaction and repeat business.

TMA Solution, Vietnam   2006 to 2007

.NET Software Engineer

- Developed web applications using ASP.NET and MS SQL, focusing on performance and scalability.
- Supported the successful launch of a client's CMS platform, improving content management processes.
